
STATEMENT REGARDING SOUTH AUSTRALIA COMMUNITY ENGAGEMENT SUMMIT

19 June 2017

Community Engagement Training Australia has made the difficult decision not to proceed with the South Australia Community Engagement Summit which was scheduled for 6 and 7 July 2017. This decision has been made as there has not been an adequate number of registrations to make this a viable event, for all involved, at this point in time.

Our aim is to ensure our events provide opportunities for collaboration, idea sharing and networking, as well as providing informative presentations from leaders in the industry. Unfortunately, despite a comprehensive publicity program over the last four months, we feel the South Australia Summit would not have had the number of attendees to ensure the event was of value to all in attendance.

As part of the 2017 Summit Series, Community Engagement Training Australia has already delivered two events, in Victoria and Queensland, which have received positive feedback and been well attended. There has also been a very good response to the upcoming events in Western Australia and New South Wales, and we are looking forward to devoting our energy and resources to ensuring these events are well received and delivered to the high quality which we strive for.

We will continue to explore opportunities to provide events across Australia, with our goal to continue to advance the community engagement industry through high quality professional development events. We thank you for your understanding.
